Titleist Pro V1

Longer Distance. Improved Scoring Performance. More Durable.

The new Titleist Pro V1® utilises a three-piece multi-layer construction to maximise distance, durability and performance.

The #1 Ball is the #1 Choice

Your golf ball is the only equipment used for every shot during your round. Choosing a golf ball that performs best green-to-tee will help you to shoot lower scores. The Pro V1 and Pro V1x golf balls are the best choice for most amateur golfers since they both provide exceptional distance and short game scoring performance. The #1 played balls on the worldwide professional tours are also the #1 performance choice for golfers.

Titleist Pro V1x

Longer Distance. More Durable.

The Titleist Pro V1x utilises a four-piece dual core construction that lowers spin and maximises distance.

The #1 Ball is the #1 Choice

Your golf ball is the only equipment used for every shot during your round. Choosing a golf ball that performs best green-to-tee will help you to shoot lower scores. The Pro V1 and Pro V1x golf balls are the best choice for most amateur golfers since they both provide exceptional distance and short game scoring performance. The #1 played balls on the worldwide professional tours are also the #1 performance choice for golfers.

Titleist NXT Tour

The Most Advanced Yet

The NXT Tour golf ball is designed for average to highly skilled golfers seeking the ultimate combination of soft feel, high performance control, and long distance. Advanced, multi-layer construction, with a new Tour-proven, higher coverage dimple design and Staggered Wave Parting Line provide longer, more consistent distance. The NXT Tour is longer with the driver and long irons, while maintaining soft feel and high performance control into and around the green.

Titleist NXT Extreme

The Most Advanced yet

The NXT Extreme golf ball is designed for golfers of all levels seeking Extreme distance without sacrificing soft feel and greenside playability. Featuring a soft compression, high COR core, new higher coverage dimple design and Staggered Wave Parting Line, the NXT Extreme provides longer, more consistent distance, while maintaining soft feel on all shots. If a Titleist NXT Extreme golf ball is cut through the normal course of play with a golf club, Titleist will replace each returned golf ball with three new Titleist NXT Extreme golf balls free of charge.

Titleist DT Carry

Longer Distance Through Greater Carry

Continuing a tradition of over 30 years of consistent product performance and quality, the new Titleist DT golf balls now provide golfers with new levels of distance via greater Carry or greater Roll. Based on your individual requirements, trajectory preference or course conditions, you will be sure to find a DT distance solution that optimizes your game.

The DT Carry golf ball combines new, large and soft core technology with a new, high lift 252 dimple design, delivering greater carry via higher ball flight for longer distance. All with the quality and consistency you have come to expect from Titleist.

Titleist DT Roll

Longer Distance Through Greater Roll

Continuing a tradition of over 30 years of consistent product performance and quality, the new Titleist DT golf balls now provide golfers with new levels of distance via greater Carry or greater Roll. Based on your individual requirements, trajectory preference or course conditions, you will be sure to find a DT distance solution that optimizes your game.

The DT Roll golf ball combines new, soft and resilient core technology with a lower trajectory 392 dimple design, delivering longer distance via penetrating ball flight and greater roll. All with the quality and consistency you have come to expect from Titleist.

New Pinnacle Dimension

Designed and engineered for golfers seeking straight flight, soft feel and long distance, the new Pinnacle Dimension's new soft, thin 3D (3 Dimensional = Distance, Durability and Dispersion) Ionomer cover formulation provides cut-proof durability. New large, soft core technology contributes to soft feel with a high initial velocity and long distance with exceptional greenside control, while a high-coverage 332 Icosahedral dimple design helps provide consistent ball flight and minimize dispersion.

Benefits

- Long Distance and Soft Feel
- Exceptional Greenside Control
- Consistent Ball Flight
- Promotes Better Putting Accuracy

Features

- Large and Soft Solid Core formulation
- 3D Ionomer cover
- 332 Icosahedral Dimple Design
- Pinnacle Alignment Sidestamp

Also Available in 12 Pack

New Pinnacle Precision

Complementing Pinnacle's Dimension introduction is the new and improved Pinnacle Gold Precision, which has been advanced to provide improved accuracy and legendary Pinnacle Gold distance, while delivering soft feel on all shots. Designed for competitive value conscious golfers seeking long, accurate distance with superior quality, the new Pinnacle Gold Precision features a soft responsive Ionomer cover and high speed, soft compression core. A high coverage 392 Icosahedral dimple design provides consistent ball flight with a flatter trajectory for long distance, while a new alignment "Precision" sidestamp promotes better putting accuracy.

Benefits

- Long Distance With Soft Feel on All Shots
- Short Game Control
- Flatter Trajectory for Long Distance
- Promotes Better Putting Accuracy

Features

- High Speed, Soft Compression Core
- Soft, Responsive Ionomer Cover
- 392 Icosahedral Dimple Design
- Pinnacle Alignment Sidestamp Promotes Better Putting Accuracy

New Pinnacle Gold

Consistent with its distance heritage, Pinnacle continues to provide a golf ball product that exceeds those golfer's expectations whose first priority is to hit the golf ball as long as humanly possible. The new Pinnacle Gold Distance will appeal to value conscious recreational golfers who prioritize long, straight distance. Designed to deliver maximum distance for average and recreational golfers, the new Pinnacle Gold Distance features a low spin, resilient Ionomer cover and a high speed core to provide long, straight distance from tee to green. A 332 Icosahedral dimple design helps provide consistent ball flight from tee to green with a higher trajectory for maximum distance. A new "Distance" alignment sidestamp promotes better putting accuracy.

Benefits

- Long Distance on All Shots
- Long, Straight Ball Flight Tee-to-Green
- Higher Trajectory for Maximum Distance
- Promotes Better Putting Accuracy

Features

- High Speed Core
- Resilient, Low Spin Ionomer Cover
- 332 Icosahedral Dimple Design
- Pinnacle Alignment Sidestamp

New Pinnacle Ribbon

The new Pinnacle Ribbon product is designed to provide value-conscious women golfers with superior distance and soft feel in traditional white and new lavender pearl cover options. A soft Ionomer cover in combination with a soft compression, faster core promotes longer distance, soft feel and improved short game control. A high coverage 392 Icosahedral dimple design helps provide consistent ball flight.

Benefits

- Longer Distance with Soft Feel Tee-to-Green
- Soft Feel and Outstanding Control
- Consistent Ball Flight

Features

- Soft Compression, Faster Core
- Soft Ionomer Cover
- 392 Icosahedral Dimple Design
